

Welcome to your Self-Guided Scavenger Hunt!

Tips and Tricks to make the most of your Adventure

1. Dress for walking, comfort and the weather. You will cover approximately 3-5kms.
2. Arrive at your starting point early and be ready to go.
3. Do not select Play Now until everyone is present and the team is ready to go.
4. Do not start all teams at once. Staggering each team's start time by 2-4 minutes will make sure you are well spread-out. Each team's time is tracked so the first team to leave is not necessarily the quickest.
5. Be observant. This Hunt is about seeing parts of our city that we do not normally see.
6. Work together. Get to know your colleagues and their strengths outside of the office.
7. Wait for each team member to be ready to progress before moving to the next clue.
8. Take photos and tag us on Instagram @teamlab4teams

And to make it even more memorable why not:

Pick a theme and dress up in fancy dress for your Scavenger Hunt. This gets people excited and really separates the activity from a day at work.

Enjoy your Self-Guided Scavenger Hunt!
